

# WIC 2009

## *Another Byproduct of the Economic Turndown*

The leadership of the three sponsoring associations --- AWFS, WMIA and WMMA --- have made the difficult decision to cancel the 18th Annual Woodworking Industry Conference. Despite registrations by many members of all three associations, attendance did not reach a level that justified going forward with the Conference, whose costs are underwritten in part for the membership by the associations. Registered attendees will be contacted about full refunds by the respective associations to which they submitted payment.

AWFS, WMIA and WMMA have always provided their members with first class events, and it is important to continue to do so. Please mark your calendars for WIC 2010 (Wednesday, April 21st through Saturday, April 24th) in Monterey, CA.
