

Are you interested in networking with local woodworking industry and education professionals?

Would you like to learn about local educational woodworking programs or companies in the area who want to connect with schools?

Do you enjoy hosting events and activities to support woodworking education?

IF SO...WE WANT YOU! *for a new Wood Industry Networking Group*

We intend to meet regularly and explore ways to help develop the future workforce for the woodworking industry. Some possible activities:

- volunteering with SkillsUSA student woodworking contests
- guest speaking in a school woodworking program
- (teachers) hosting a tour of your school program for industry professionals or (industry) of your (or a customer's) facility for high school students and their teachers
- educational seminars and demos for high school students and/or teachers
- social events/networking mixers

To learn more, please complete this brief survey:
